

What insurances do you have in place to protect you, your family and your home?

Life Insurance

Life Insurance provides protection in the form of a lump sum payable on death of the insured. We will tailor your protection needs based on your mortgage and any other requirements you may have.

Critical Illness Cover

This is designed to pay out a specific lump sum (sum assured) on the diagnosis of a range of circumstances including heart attack, cancer, stroke. Not all illnesses are covered, and we will provide you with a list of all the conditions covered.

Income protection

This provides a specific amount to replace your income in the event you cannot work due to illness or injury. This can last until your designated retirement age.

The level of cover depends on your personal requirements and we can tailor a plan for you.

Accident, Sickness and Unemployment

This pays out if you are unable to work due to redundancy, sickness or injury.

It last usually for 12 -24 months per claim or until you go back to work whichever is the sooner.

Building and contents cover

Your lender will require you to insure the building in the event of certain insurable events. Contents will cover you against events such as loss, theft, fire, flood.

Landlord Insurance

Designed for landlords to cover the buildings, contents and loss of rent.

As part of the professional service we offer we will always discuss these with you to ensure not only you, but your home and contents are protected.
